

5th Annual Team America Rocketry Challenge

It is rocket science, after all...

Thousands of students each year compete in the Team America Rocketry Challenge, the world's largest model rocket contest.

Your school can compete against other schools and organizations from across the country for its share of \$60,000 in prizes!

To win, each team must design, build, and fly a model rocket that carries one raw egg. The goal is to fly to 850 feet and stay aloft for 45 seconds. Whoever is the closest to both and brings the egg back unbroken wins!

2007 Contest Applications available beginning September 6, 2006

Application Deadline is November 15, 2006
